🇬🇧 ENG - C1 🇵🇱 PL - NATIVE

MICHAŁ WDOWIK

FRONTEND DEVELOPER

📍 WARSAW, POLAND

TECH STACK

Solid:

- React
- TypeScript
- JavaScript
- HTML
- CSS
- RWD

Basics/used in projects:

- Git & Github
- REST API
- Cypress
- ESLint
- PWA
- Figma
- Prettier
- Tailwind
- Material UI
- Node.js

My goal is to write maintainable, clean, and reusable code. I take care of choosing reputable sources of knowledge to enhance my skills (MDN and expert-led courses, such as those offered by Brian Holt on Frontend Masters). Working in a team, I try to bring value and get along easily. I value the culture of knowledge sharing within the developers' community. Participating in platforms like [Codewars](#) and [Twitter](#), I share links that have helped me understand various technologies. I believe that the next step in my career is to work in a demanding team. I appreciate feedback and welcome criticism, recognizing its value in driving improvement. Recently, I have been learning the basics of Backend and Figma to prepare myself for cooperation with teammates.

EXPERIENCE

CINEMATLY

[LINK TO REPO](#) [LINK TO DEMO](#)

TYPESCRIPT REACT.JS CYPRESS RWD
MATERIAL UI PRETTIER PWA ESLINT

- Built on **API** integration, utilizing React **Router** for navigation
- Incorporated **loading states** with placeholders/skeletons
- Implemented **lazy loading** techniques to improve overall efficiency
- I utilized **custom hooks** and designed reusable **components**
- Improving **Lighthouse Score**, I have learned how to enhance website accessibility and performance and transform a website into a **PWA**
- Implemented **e2e** tests to validate the functionality and performance

DAILYFLOW

[LINK TO REPO](#) [LINK TO DEMO](#)

TYPESCRIPT REACT.JS CYPRESS PWA
RWD PRETTIER TAILWIND CSS ESLINT

- Acquired skills to implement **CRUD** operations
- Utilizing **modals** and **portals** I learned about **stacking context**
- I developed error-handling mechanisms that provide responsive feedback to users, displaying **alerts** for both successful and erroneous actions
- Improving **Lighthouse Score**, I have learned how to enhance website accessibility and performance and transform a website into a **PWA**

E-COMMERCE STORE

HTML/CSS UI/UX SEO WEB DESIGN SHOPIFY

- I have gained knowledge and experience in how to optimize a website **SEO**
- Designing a website, I enhanced my **UI/UX** skills, learned HTML/CSS basics
- I have executed email marketing campaigns by utilizing a customer database and leveraging extension tools

COURSES

- **EFSET English Certificate** 72/100 (C2 Proficient)
- **Mozilla Developer Network:** Web Development (HTML/CSS/JS)
- **CodeCademy:** HTML/CSS/JS module courses

- **FrontendMasters:** JavaScript: From First Steps to Professional - Anjana Vakil
- **FrontendMasters:** JavaScript: The Hard Parts & New Hard Parts - Will Sentence
- **FrontendMasters:** Complete Intro to React - Brian Holt
- **FrontendMasters:** Intermediate React - Brian Holt
- **FrontendMasters:** TypeScript Fundamentals - Mike North
- **FrontendMasters:** Figma for Developers - Steve Kinney
